Systems working together: to reduce health care costs & improve the quality of care

NHIN Direct

- Secure Push Messaging Solution
- Scheduled for implementation in late September 2011
- AeHN will provide Direct email addresses and interface for members
- Will facilitate secure communication of PHI between providers whose EHR's aren't connected to the HIE

State HIE Connection

- DHSS is working with a contractor to
 - Define the architecture for the State's connection to the HIE
 - Define the State's data needs
- DHSS, AeHN and other individuals are participating in various HIE workgroups including:
 - Legal (privacy and security)
 - Clinical
 - Technical
